### **Fixed station radio repairer**

CRC Press  
Financial Mathematics  
for Actuarial Science:  
The Theory of Interest  
is concerned with the

measurement of  
interest and the  
various ways interest  
affects what is often  
called the time value of  
money (TVM). Interest  
is most simply defined  
as the compensation

that a borrower pays to a lender for the use of capital. The goal of this book is to provide the mathematical understandings of interest and the time value of money needed to succeed on the actuarial examination covering interest theory Key Features Helps prepare students for the SOA Financial Mathematics Exam Provides mathematical understanding of interest and the time value of money needed to succeed in the actuarial examination covering interest theory Contains many worked examples, exercises and solutions for practice Provides training in the use of calculators for solving problems A complete solutions manual is available to faculty adopters online
