The electrifying new Cotton Malone thriller by international bestseller Steve Berry. People say the Cold War is coming back. For some, it never went away. Shot down over Siberia in what was to be a simple meet-and-greet mission, ex-Justice Department agent Cotton Malone is forced into a fight for survival against Aleksandr Zorin, whose loyalty to the former Soviet Union has festered for decades into an intense hatred of the United States. Before escaping, Malone learns that Zorin is headed for North America to join another long-term sleeper embedded in the West. Armed with a Soviet weapon long thought to be just a myth, Zorin is aided by a shocking secret hidden in the archives of America's oldest fraternal organization, the Society of Cincinnati. Past presidents used this group's military offensive - including advice on the invasion of what was to be America's 14th Colony -

Canada. Inauguration Day for a new President of the U.S.A. is only hours away. Zorin's deadly plan is timed to bring about political chaos. In a race against the clock from Russia to the White House itself, Malone must not only battle Zorin, he must also confront his deepest fear, a crippling weakness that he's long denied but one that now jeopardizes everything. Steve Berry's trademark mix of fact, fiction, history and speculation is all here in this fast-paced and utterly compelling new thriller.

Rapid improvements and constant advancements in information technology have inevitably led to significant changes for businesses across the globe. As a result, some of these large shifts have unfortunately ended in major financial crises. Technology and Financial Crisis: Economical and Analytical Views investigates financial crises from unique points of view. Not only does this publication consider the broader economical implications that a financial crisis can have on one business or on a whole country, but it also thoroughly discusses the smaller areas which are affected or contribute to the downfall. This book is intended to be of use to the public sector, researchers, practitioners, and educators who are interested in the affects of a financial crises and possible ways to reduce such large scale problems in the future.

[Competing in the Global Marketplace](#) Wiley

This book outlines features of international business transactions, and discusses their various associated risks. For the successful completion of an international business transaction, depending on its terms, both parties need access to funds. This text deals with financing mechanisms mainly in the international sale of goods and in overseas construction projects. Concerning financing international sale of goods, it discusses export working capital financing, documentary credit, negotiation of bills of exchange,

export factoring, and international forfaiting. Concerning financing an overseas construction project, this book discusses supplier and buyer credit, project finance, syndicated loans, and independent guarantees (or standby letters of credit). The book also covers export credit insurance (or export credit guarantee), which is very useful for the facilitation of financing in the international sale of goods and in overseas construction projects.

Given the global nature of business today and the increasing diversity within the workforce of so many industries and organisations, a cross-cultural component in management education and training has become essential. This is the case for every type of business education, whether it be for aspiring graduates at the start of their careers or senior managers wishing to increase their effectiveness or employability in the international market. The 4th edition of Understanding Cross-Cultural Management has been adapted in line with the feedback from our many readers, and boasts new case study material based on recent research, as well as a stronger focus on Asian cultures, thereby providing more non-Western examples.

The ability to analyze and interpret enormous amounts of data has become a prerequisite for success in allied healthcare and the health sciences. Now in its 11th edition, Biostatistics: A Foundation for Analysis in the Health Sciences continues to offer

in-depth guidance toward biostatistical concepts, techniques, and practical applications in the modern healthcare setting. Comprehensive in scope yet detailed in coverage, this text helps students understand—and appropriately use—probability distributions, sampling distributions, estimation, hypothesis testing, variance analysis, regression, correlation analysis, and other statistical tools fundamental to the science and practice of medicine. Clearly-defined pedagogical tools help students stay up-to-date on new material, and an emphasis on statistical software allows faster, more accurate calculation while putting the focus on the underlying concepts rather than the math. Students develop highly relevant skills in inferential and differential statistical techniques, equipping them with the ability to organize, summarize, and interpret large bodies of data. Suitable for both graduate and advanced undergraduate coursework, this text retains the rigor required for use as a professional reference.

Organizational Behavior, 13th Edition John Wiley & Sons

President Donald J. Trump lays out his professional and personal worldview in this classic work—a firsthand account of the rise of America's foremost deal-maker. "I like thinking big. I always have. To me it's very simple: If you're going to be thinking anyway, you might as well think big."—Donald J. Trump Here is Trump in action—how he runs his organization and how he runs his life—as

he meets the people he needs to meet, chats with family and friends, clashes with enemies, and challenges conventional thinking. But even a maverick plays by rules, and Trump has formulated time-tested guidelines for success. He isolates the common elements in his greatest accomplishments; he shatters myths; he names names, spells out the zeros, and fully reveals the deal-maker's art. And throughout, Trump talks—really talks—about how he does it. Trump: The Art of the Deal is an unguarded look at the mind of a brilliant entrepreneur—the ultimate read for anyone interested in the man behind the spotlight. Praise for Trump: The Art of the Deal "Trump makes one believe for a moment in the American dream again."—The New York Times "Donald Trump is a deal maker. He is a deal maker the way lions are carnivores and water is wet."—Chicago Tribune "Fascinating . . . wholly absorbing . . . conveys Trump's larger-than-life demeanor so vibrantly that the reader's attention is instantly and fully claimed."—Boston Herald "A chatty, generous, chutzpa-filled autobiography."—New York Post

Traditionally, international business (IB) texts survey the field from a USA perspective, going on to compare the USA to the rest of the business world. This text addresses IB from a purely multinational perspective. International Business is examined from the USA angle, going on to address IB issues from other countries' perspectives, what we call the "Reverse Perspective." The authors interview business executives and politicians from a number of countries including the USA, Canada, Mexico, Brazil, Colombia, Argentina, India, Hong Kong, Taiwan, China, Japan, South Korea, Germany, Italy, and Russia. These interviews are incorporated at appropriate points in the text providing first-hand information and practical insight. Cases include: Air Arabia, Gap, Diebold Inc, Matsushita, AMSUPP, NIKE, China Eastern Airlines, Luton & Dunstable Hospital, Harley Davidson, Cassis de Dijon, Green investments in Belize, Chicago Food and Beverage Company, Advanced Software Analytics
