### **Asia's New Geopolitics**

Routledge

China and Pakistan, India's two most powerful neighbours, share an 'all-weather' relationship that is as reputed for its depth as it is layered in secrecy.

Based on years of research and interviews, Andrew Small has put together the story of China and Pakistan's

growing, and in parts troubled, friendship. The China-Pakistan Axis is essential to understanding the economic, political and security map of Asia, especially India's neighbourhood. It explains Beijing's extraordinary support to Pakistan's nuclear programme and defence planning, their strategic cooperation on India, the

United States and Afghanistan, and the implications for counter-terrorism efforts. A special chapter for this Indian edition brings the book up to date on China's involvement in the Taliban talks.

Random House India Edeo (Educational Video Online Courses) is one of the pioneering online Courses Creators. We provide Contents and Solutions, online, offline, in Classroom presentation or online lessons, group assignments or personal learning management. We welcome Teachers to join our group and marketing networks (more than 1 million users in our

networks and social media, YouTube, Udemy, Amazon, iBook, Teachlr, Google Books, Rakuten Kobo etc.) for: - developing and publishing books, teaching materials - creating and marketing online Video - Hosting online live courses Our Publications including: KDP: Amazon Kindle Books, ebook and Paperback. Udemy: Online Video Courses hosted in Udemy, lifetime access. Quiz: Online Quiz, auto grading and explanations, hosted on Udemy, lifetime access. Skype: Online Live

Course via Skype. YouTube: YouTube Live broadcasting. Topics Covering: covering from Kindergarten, YCT (Youth Chinese Test), HSK (Chinese Proficiency Test), IGCSE Chinese, A1, A2 Chinese, IB Chinese, SAT Chinese, AP Chinese, IB Chinese, etc. This is our past 25 years painstaking efforts based on our firsthand experience to teach foreigners. "Share with You What We Know Best" is our Slogan. We start with LEGOO Mandarin and now expand the system into other

topics: Bahasa Malaysia, IT eCommerce, Accounting and Finance, Tai Chi Fitness and Qi Gong. You can learn anytime anywhere! *INTERMEDIATE 1 YEAR CHEMISTRY(English Medium) TEST PAPERS* Legoo Mandarin At a time of social, political, and economic shifts across the world, India is faced with the pivotal challenge of addressing the state of its universities. In a region that was home to the leading higher learning institutions during ancient

times, the descent in the quality of higher education offered by modern India's universities is yet to create the desired impact. To be effective, universities will need to create institutional ecosystems that are reflective of the complex and interconnected worlds their graduates will live in. India's extraordinary demographic profile creates a compelling need for its universities to reimagine their roles. The contributors in this volume argue for

fundamental reforms to bring about a renewed sense of purpose. The chapters are authored by leading scholars in the fields of law, management, educational theory, liberal arts, international relations, and science and technology, and reflect the multiple approaches necessary to address the most difficult challenges in our times. The volume provides international and comparative perspectives on higher education, and will be immensely useful in highlighting issues

being faced by Indian universities.  
*Geyer's Stationer* Simon and Schuster  
 The public health footprint associated with corporate behavior has come under increased scrutiny in the last decade, with an increased expectation that private profit not come at the expense of consumer welfare. Consumers, Corporations, and Public Health assembles 17 case studies at the intersection of business and public health to illustrate how each side can inform and

benefit the other. Through contemporary examples from a variety of industries and geographies, this collection provides students with an appreciation for the importance of consumer empowerment and consumer behavior in shaping both health and corporate outcomes.

 In recent years there has been a substantial debate over the interconnection

between labour rights and human rights. Consequently, the jurisprudence of the European Court of Human Rights (ECtHR) concerning substantive individual labour rights, or 'rights at work', is coming to greater prominence at the national level throughout the forty-seven Member States of the Council of Europe. This is the first book in English to provide a thorough analysis of the Court's most recent case law – cases considered in the period from 1963 to 2016 – on fundamental

employment rights such as the right to wages, protection from discrimination and unfair dismissal, the right to occupational safety at work, and civil liberties such as the freedom of association, the freedom of religion and expression, and the right to privacy. Drawing on close scrutiny of 347 cases since 1963, the author traces the evolutionary development of the Court's positions on labour rights as human rights through case analyses, commentary, and general conclusions

in each of several categorical groupings. Recent trends are treated in substantial detail. Among the issues and topics raised are the following: – interrelation of ECtHR case law and national labour rights protection; – benefits for employees of reference to ECtHR case law in national proceedings; – role of International Labour Organization conventions and of the European Social Charter in the Court's reasoning; – application of balancing and proportionality test in

relevant to labour law cases; – public criticism of employer, disclosure of information, and standards of whistle-blowers' protection; and – positive obligations of the State in the –field of occupational safety and health. This book offers the most detailed and considered analysis available of how individual labour rights have been referred to in the human rights jurisprudence of the ECtHR. Given that the Court's positions have already changed certain aspects of some national

labour laws, this peerless volume will prove indispensable for practitioners and scholars monitoring the growing applicability of human rights law in matters of labour and employment, especially in the areas of protection of wages, unjust dismissal, and occupational safety. *Introducing the IB Diploma Programme* Legoo Mandarin IB Chinese courses expect students to demonstrate very good abilities of analyzing literature and languages within cultural

and social context. The language B Standard Level (SL) and language B Higher Level (HL) courses are language acquisition courses for students with some previous experience of the target language. The International Baccalaureate Diploma Programme is a two-year educational programme primarily aimed at 16-to-19-year-olds in 140 countries around the world. The programme provides an internationally accepted qualification for entry into higher education and is

recognized by many universities worldwide. Based on HSK HSK 4-6 Version 2021 (3335 Words), and IB syllabus, we edited new version for IB Chinese A (HL) Grammar 2022. By referring to IB Chinese Syllabus, AP Chinese, SAT Chinese, Cambridge IGCSE Chinese, Edexcel IGCSE Chinese (another two examination board) and HSK (Chicness Proficiency Test), BCT (Business Chinese), combining our 26 years' experience in Teaching and editing our own

materials, here is the "LIFE SAVING" book called by many students for their exams. The book give a quick revision for your coming exam! Thanks for your support for us creating better contents for you! It takes our years' painful effort to edit. Grab it!

### **Moving Beyond the First 40 Years** Legoo Mandarin

What are the impacts of population growth? Can our planet support the demands of the ten billion people anticipated to be the world's population by

the middle of this century? While it is common to hear about the problems of overpopulation, might there be unexplored benefits of increasing numbers of people in the world? How can we both consider and harness the potential benefits brought by a healthier, wealthier and larger population? May more people mean more scientists to discover how our world works, more inventors and thinkers to help solve the world's problems, more skilled people to put

these ideas into practice? In this book, leading academics with a wide range of expertise in demography, philosophy, biology, climate science, economics and environmental sustainability explore the contexts, costs and benefits of a burgeoning population on our economic, social and environmental systems. Regions and Intertwined Actors in International Relations Routledge  
A groundbreaking history of how the US Post made the nineteenth-century

American West. There were five times as many post offices in the United States in 1899 than there are McDonald's restaurants today. During an era of supposedly limited federal government, the United States operated the most expansive national postal system in the world. In this cutting-edge interpretation of the late nineteenth-century United States, Cameron Blevins argues that the US Post wove together two of the era's defining projects: western expansion and

the growth of state power. Between the 1860s and the early 1900s, the western United States underwent a truly dramatic reorganization of people, land, capital, and resources. It had taken Anglo-Americans the better part of two hundred years to occupy the eastern half of the continent, yet they occupied the West within a single generation. As millions of settlers moved into the region, they relied on letters and newspapers, magazines and pamphlets, petitions

and money orders to stay connected to the wider world. Paper Trails maps the spread of the US Post using a dataset of more than 100,000 post offices, revealing a new picture of the federal government in the West. The western postal network bore little resemblance to the civil service bureaucracies typically associated with government institutions. Instead, the US Post grafted public mail service onto private businesses, contracting with stagecoach companies to carry the mail and paying

local merchants to distribute letters from their stores. These arrangements allowed the US Post to rapidly spin out a vast and ephemeral web of postal infrastructure to thousands of distant places. The postal network's sprawling geography and localized operations forces a reconsideration of the American state, its history, and the ways in which it exercised power. *Paper Trails* Legoo Mandarin B Chinese courses expect students to demonstrate

The mission of the

International Journal of Educational Reform (IJER) is to keep readers up-to-date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities. As the only peer-reviewed scholarly publication that combines authors' voices without regard for the political affiliations perspectives, or research methodologies, IJER provides readers with a balanced view of all sides of the political and

educational mainstream. To this end, IJER includes, but is not limited to, inquiry based and opinion pieces on developments in such areas as policy, administration, curriculum, instruction, law, and research. IJER should thus be of interest to professional educators with decision-making roles and policymakers at all levels turn since it provides a broad-based conversation between and among policymakers, practitioners, and academicians about reform goals, objectives,

and methods for success throughout the world. Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked. IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes. Finally, it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational

reform in the U.S. and the world.

### **Al-Qaeda and Islamic State's Global Battle of Ideas**

John Wiley & Sons  
 Jihadist narratives have evolved dramatically over the past five years, driven by momentous events in the Middle East and beyond; the death of bin Laden; the rise and ultimate failure of the Arab Spring; and most notably, the rise of the so-called Islamic State. For many years, al-Qaeda pointed to an aspirational future Caliphate as their utopian end goal - one

which allowed them to justify their violent excesses in the here and now. Islamic State turned that aspiration into a dystopic reality, and in the process hijacked the jihadist narrative, breathing new life into the global Salafi-Jihadi movement. Despite air-strikes from above, and local disillusionment from below, the new caliphate has stubbornly persisted and has been at the heart of ISIS's growing global appeal. This timely collection of essays examines how jihadist

narratives have changed globally, adapting to these turbulent circumstances. Area and thematic specialists consider transitions inside the Middle East and North Africa as well as in South Asia, sub-Saharan Africa and Europe. As these analyses demonstrate, the success of the ISIS narrative has been as much about resonance with local contexts, as it has been about the appeal of the global idea of a tangible and realised caliphate.  
IJER Vol 25-N3 Legoo

Mandarin  
Globalization affects urban communities in many ways. One of its manifestations is increased intercity competition, which compels cities to increase their attractiveness in terms of capital, entrepreneurship, information, expertise and consumption. This competition takes place in an asymmetric field, with cities trying to find the best possible ways of using their natural and created assets, the latter including a naturally

evolving reputation or consciously developed competitive identity or brand. The Political Economy of City Branding discusses this phenomenon from the perspective of numerous post-industrial cities in North America, Europe, East Asia and Australasia. Special attention is given to local economic development policy and industrial profiling, and global city rankings are used to provide empirical evidence for cities' characteristics and positions in the global

urban hierarchy. On top of this, social and urban challenges such as creative class struggle are also discussed. The core message of the book is that cities should apply the tools of city branding in their industrial promotion and specialization, but at the same time take into account the special nature of their urban communities and be open and inclusive in their brand policies in order to ensure optimal results. This book will be of interest to scholars and

practitioners working in the areas of local economic development, urban planning, public management, and branding.

IB Mandarin Chinese B (Ab Initio) is for beginners, for example, students whose first language is English but have a little

experience in learning Chinese or have no experience. It is only available in Standard Level. By referring HSK (version 2009 and the latest version 2021), we edited a series of Chinese Vocabulary for those who are studying Chinese or preparing international examinations, such as IB, SAT, AP, IGCSE, GCSE Chinese. Combining our 26 years' experience in Teaching and editing our own materials, here is the "LIFE SAVING" book called by many students for their exams. The book give a

quick revision for your coming exam! Thanks for your support for us creating better contents for you! It takes our years' painful effort to edit. Grab it!

*The Future of Indian Universities* Springer Oil, an integral part of the contemporary global economy, is considered a driving force behind the 2003 invasion of Iraq. Hydrocarbon reserves in Iraq have a significant role to play in global supply, with oil revenue accounting for more than 90% of Iraqi government

income. This book provides a comprehensive insight into the key foundations of Iraq's oil industry and assists in the development of a core area of domestic law to promote economic recovery following years of instability. It addresses the development of oil legislation and the formation of contracts since the US and allied occupation of Iraq in 2003. Legislation is assessed against the framework of the constitution along with the different types of oil

agreements and their terms. The book looks at three main aspects of oil legislation, beginning with the validity and interpretation of the constitution as any subsequent legislation governing oil policy will be based upon this. The work then discusses whether the draft oil and gas law of 2007 and any subsequent oil legislation, including the law implemented by the Kurdish Regional Government in 2007, is valid. Finally, the book analyses the legitimacy of

oil agreements entered into by the central and regional governments and whether these contain terms beneficial to the state and contracting party. Providing an in-depth analysis of the origins and development of the legal framework of the oil industry in Iraq, the book acts as both a reference source and a springboard for future research across a range of legal, economic and policy perspectives. It will appeal to practitioners and academics working in energy law and

international investment law, as well as policy-makers, legal advisors and those working in governments and energy companies.

Is the Planet Full? SAGE  
Over the last forty years, the estimated number of international schools worldwide has increased from fewer than 300 to 6400 in 2012. This explosion is a response to the needs of a world in which borders are being traversed with ever greater ease and children increasingly need to be prepared for the global

opportunities that await them. In this book, international school specialists reflect on where the movement has come from, how it stands and where developments are heading, offering insightful observations on these unique institutions. This is a comprehensive resource for students,

researchers and professionals with an interest in the future of education in a globalized world.
