For Cultural Heritage This volume presents
the work of dozens of leading scientist
working on the problems presented by the
biological degradation of cultural heritage.

"Plant Biology for Cultural Heritage" not
only tackles general topics - including
mechanism of biodeterioration, correlation
between biodeterioration and
environment, and destructive organisms -
but also specific ones, such as the
problems presented by different materials,
various environmental and climatic
conditions, and diverse geographic
settings. Plant Biology for Cultural
Heritage: Biodeterioration and ... Plant
Biology for Cultural Heritage presents the
work of dozens of scientists who have
studied problems presented by the
biological degradation of cultural heritage,
tackling both general topics (mechanisms
of biodeterioration; correlation between
biodeterioration and environment; and
destructive organisms) and specific ones
(problems presented by different
materials; various environmental and
climatic conditions; and diverse
geographic settings). The book also
discusses solutions for the ... Plant Biology
