Endless Forms Most Beautiful Simon and Schuster

"Barkskins opens in New France in the late 18th century as Renae Sel, an illiterate woodsman makes his way from Northern France to the homeland to seek a living. Bound to a 'seigneur' for three years in exchange for land, he suffers extraordinary hardship and violence, always in awe of the forest he is charged with clearing. In the course of this epic novel, Proulx tells the stories of Renae's children, grandchildren, and great grandchildren, as well as the descendants of his friends and foes, as they travel back to Europe, to China, to New England, always in quest of a livelihood or fleeing stunningly brutal conditions--war, pestilence, Indian attacks, the revenge of rivals. Proulx's inimitable genius is her creation of characters who are so vivid--in their greed, lust, vengefulness, or their simple compassion and hope--that we follow them with fierce attention. This is Proulx's most ambitious novel ever, and her master work"--

Edge Strategy Springer

* Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. By reading this summary, you will learn about the Long Tail economy and the opportunity it represents for business strategies today. You will also learn : how the Long Tail market has progressively imposed itself in front of the best-seller market; how this economic vision is redefining the way traditional sectors make profit; what is the current role of the Long Tail in valuing niche markets and promoting their diversity. With the Long Tail, Chris Anderson takes up a statistical concept. Contrary to the so-called "best-sellers", the tail represents the end of the sales curve, in other words, low sales. Long favoured by companies for a long time, the hits of head are still perceived as more remunerative than the products of tail, which are assimilated to window articles or missed best-sellers. However, the Tail is getting longer with the digital age, counting more and more products, representing more and more purchases, niches and micro-revenues which, once aggregated, produce a decisive capital. A product with modest sales rates can simply no longer be considered unsold. For ten years now, the Long Tail has been shaking up sales practices, the structure of the offer and the relationship with the consumer. Thanks to online

commerce, it responds to every request, however punctual and anecdotal it may be. No item and no potential customer is now excluded from this large-scale economy. *Buy now the summary of this book for the modest price of a cup of coffee!

Remix Little, Brown Books for Young Readers

The first biography of Yo La Tengo, the massively influential band who all but defined indie music. Yo La Tengo has lit up the indie scene for three decades, part of an underground revolution that defied corporate music conglomerates, eschewed pop radio, and found a third way. Going behind the scenes of one of the most remarkable eras in American music history, *Big Day Coming* traces the patient rise of husband-and-wife team Ira Kaplan and Georgia Hubley, who—over three decades—helped forge a spandex-and-hairspray-free path to the global stage, selling millions of records along the way and influencing countless bands. Using the continuously vital Yo La Tengo as a springboard, *Big Day Coming* uncovers the history of the legendary clubs, bands, zines, labels, record stores, college radio stations, fans, and pivotal figures that built the infrastructure of the now-prevalent indie rock world. Journalist and freeform radio DJ Jesse Jarnow draws on all-access

interviews and archives for mesmerizing trip through contemporary music history told through one of its most creative and singular acts.

The New Science of Evo Devo and the Making of the Animal Kingdom Oxford University Press, USA

This stunning fantasy inspired by Chinese folklore is a companion novel to *Starry River of the Sky* and the New York Times bestselling and National Book Award finalist *When the Sea Turned to Silver*. In the valley of Fruitless mountain, a young girl named Minli lives in a ramshackle hut with her parents. In the evenings, her father regales her with old folktales of the Jade Dragon and the Old Man on the Moon, who knows the answers to all of life's questions. Inspired by these stories, Minli sets off on an extraordinary journey to find the Old Man on the Moon to ask him how she can change her family's fortune. She encounters an assorted cast of characters and magical creatures along the way, including a dragon who accompanies her on her quest for the ultimate answer. Grace Lin, author of the beloved *Year of the Dog* and *Year of the Rat* returns with a wondrous story of adventure, faith, and friendship. A fantasy crossed with Chinese folklore, *Where the Mountain Meets the Moon* is a timeless story reminiscent of *The Wizard of Oz* and Kelly Barnhill's *The Girl Who Drank the Moon*. Her beautiful illustrations, printed in full-color, accompany the text throughout. Once again, she has created a charming, engaging book for young readers.

The Myth of Sisyphus And Other Essays Currency

Blast Away to Adventure! The Very Large Object That ATE the Other Very Large Objects! The Sargasso. Space ships go in, and they don't come back. But as the all-destroying Nefrim drive humanity from the stars, everything depends on one captain's desperate gambit: to dial his stardrive to zero%to "fall off the map"%and plunge into the ocean-covered pocket universe that is the Sargasso. Within is a secret that can change a galaxy. And, though escape is a trick generations of trapped starfarers have tried and failed to master%now the fate of two universes depends on Mikail Volkov being the first to GET OUT! The dawn of a new hard-hitting space adventure by the winner of the 2003 John W. Campbell Award for Best New Writer! At the publisher's request, this title is sold without DRM (Digital Rights Management). "Buffy fans should find a lot to like in [Spencer's] resourceful heroine." ¾Publishers Weekly "Wit and intelligence." ¾Publishers Weekly on multiple-award-winning Wen Spencer.

The Psychology of Money Currency

A young girl learns she's half mermaid and plunges into a scheme to reunite with her father in this entrancing, satisfying tale that beckons readers far below the waves. For as long as she can remember, twelve-year-old Emily Windsnap has lived on a boat. And, oddly enough, for just as long, her mother has seemed anxious to keep Emily away from the water. But when Mom finally agrees to let her take swimming lessons, Emily makes a startling discovery — about her own identity, the mysterious father she's never met, and the thrilling possibilities and perils shimmering deep below the water's surface. With a sure sense of suspense and richly imaginative details, first-time author Liz Kessler lures us into a glorious undersea world where mermaids study shipwrecks at school and Neptune rules with an iron trident — an enchanting fantasy about family secrets, loyal friendship, and the convention-defying power of love.

Big Day Coming Vintage

What happens when there is almost unlimited choice? When everything becomes available to everyone? And when the combined value of the millions of items that only sell in small quantities equals or even exceeds the value of a handful of best-sellers? In this ground-breaking book, Chris Anderson shows that the future of business does not lie in hits - the high-volume end of a traditional demand curve - but in what used to be regarded as misses - the endlessly long tail of that same curve. As our world is transformed by the Internet and the near infinite choice it offers consumers, so traditional business models are being overturned and new truths revealed about what consumers want and how they want to get it. Chris Anderson first explored the Long Tail in an article in *Wired* magazine that has become one of the most influential business essays of our time. Now, in this eagerly anticipated book, he takes a closer look at the new economics of the Internet age, showing where business is going and exploring the huge opportunities that exist: for new producers, new e-tailers, and new tastemakers. He demonstrates how long tail economics apply to industries ranging from the toy business to advertising to kitchen appliances. He sets down the rules for operating in a long tail economy. And he provides a glimpse of a future that's already here.

Quicklet on Chris Anderson's The Long Tail (CliffNotes-like Summary) Penguin

The *Dangerous Summer* is Hemingway's firsthand chronicle of a brutal season of bullfights. In this vivid account, Hemingway captures the exhausting pace and pressure of the season, the camaraderie and pride of the matadors, and the mortal drama—as in fight after fight—the rival matadors try to outdo each other with ever more daring performances. At the same time Hemingway offers an often complex and deeply personal self-portrait that reveals much about one of the twentieth century's preeminent writers.

A Novel Simon and Schuster

Graphic novel adaptation of Chris Anderson's "The Long Tail : Why the Future of Business is Selling Less of More". "Shows how the future of commerce and culture isn't in the high-volume head of a traditional demand curve, but in what used to be regarded as misses--the endlessly long tail of that same curve."--Publisher.

A Novel Harriman House Limited

What happens when advances in technology allow many things to be produced for more or less nothing? And what happens when those things are then made available to the consumer for free?In his groundbreaking new book, *The Long Tail* author Chris And

A Novel Hachette Books

The 'long tail' of holiday offerings implies dramatic shifts in the sector's concentration levels and its competitive dynamics. In order to examine the applicability and validity of this scenario, a number of key holiday niches are examined in terms of their demand development, supplier landscapes, operational challenges and future potential.

The Psychology of Human Satisfaction Delacorte Press

In fact, they are the starting point to take action and push your business to the next level.

The Longer Long Tail Simon and Schuster

The Longer Long TailHow Endless Choice is Creating Unlimited DemandCentury

The Long Tail Century

Are you missing opportunities for growth that are right in front of you? In today's volatile economic environment, filled with uncertainty and sudden change, the forces pushing you to stay focused on the core business are extremely powerful. Profiting from the core is crucial, but the danger is that overfocus on the core can blind companies. Scanning the horizon for new markets and new products can also be tempting, but risky. Fixating too much on either strategy can cause you to miss the substantial opportunities for growth that are often hidden in plain sight, at the edge of the core business. In this insightful yet practical book, strategy experts Alan Lewis and Dan McKone articulate a mindset that helps leaders recognize and capitalize on these opportunities. The Edge Strategy framework challenges how the boundaries of your existing products and services map to your customers' views of the world and then provides three different lenses through which you can see and leverage value: • Product edge. How to capture incremental profits and other benefits by slightly altering the elements and composition of a core offering • Journey edge. How to create and capture extra value by adjusting your role in supporting the customer's journey to and through your offering • Enterprise edge. How to unlock additional value from resources and capabilities that support your core offering by applying them in a different context, for a different offering or different set of customers With engaging examples across many industries, Lewis and McKone coach you on how to identify and assess each of the different "edges" and then provide concrete insights and advice on applying edge strategy and tactics to use in specific business contexts. The book concludes with a ten-step process to help executives and managers find and leverage the edges in their own companies. Edge Strategy is the concise, hands-on guide for growing your business by getting more yield from assets already in place, relationships already established, and investments already made.

The Long Tail of Tourism Back Bay Books

With the rise of the Internet, many pundits predicted that middlemen would disappear. But that hasn't happened. Far from killing the middleman, the Internet has generated a thriving new breed. In *The Middleman Economy*, Silicon Valley-based reporter Marina Krakovsky elucidates the six essential roles that middlemen play.

Wikinomics Henry Holt and Company

Follow the adventures of Matchi, a spunky little beagle with a lot to say! Matchi lives with his human family, and although from the outside he might seem cute and cuddly, on the inside this dog has got a mind of his own. Through Matchi's many "tails" of chasing bunnies, escaping prison, and his endless search for more food, young readers can decide for themselves whether or not this little beagle's stories are true... or whether he's full of baloney.

A New Mindset for Profitable Growth W. W. Norton & Company

A fable about the power of books and knowledge, "finely balanced between pathos and comedy," from one of Czechoslovakia's most popular authors (Los Angeles Times). A New York Times Notable Book Hařtá has been compacting trash for thirty-five years. Every evening, he rescues books from the jaws of his hydraulic press, carries them home, and fills his house with them. Hařtá may be an idiot, as his boss calls him, but he is an idiot with a difference—the ability to quote the Talmud, Hegel, and Lao-Tzu. In this "irresistibly eccentric romp," the author Milan Kundera has called "our very best writer today" celebrates the power and the indestructibility of the written word (The New York Times Book Review).

Find your niche and future-proof your business Shortcut Edition

NEW YORK TIMES BESTSELLER • "A legal thriller that's comparable to classics such as Scott Turow's *Presumed Innocent* . . . tragic and shocking."—Associated Press NOW AN EMMY-NOMINATED ORIGINAL STREAMING SERIES • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Entertainment Weekly • Boston Globe • Kansas City Star Andy Barber has been an assistant district attorney for two decades. He is respected. Admired in the courtroom. Happy at home with the loves of his life: his wife, Laurie, and their teenage son, Jacob. Then Andy's quiet suburb is stunned by a shocking crime: a young boy stabbed to death in a leafy park. And an even greater shock: The accused is Andy's own son—shy, awkward, mysterious Jacob. Andy believes in Jacob's innocence. Any parent would. But the pressure mounts. Damning evidence. Doubt. A faltering marriage. The neighbors' contempt. A murder trial that threatens to obliterate Andy's family. It is the ultimate test for any parent: How far would you go to protect your child? It is a test of devotion. A test of how well a parent can know a child. For Andy Barber, a man with an iron will and a dark secret, it is a test of guilt and innocence in the deepest sense. How far would you go? Praise for *Defending Jacob* "A novel like this comes along maybe once a decade . . . a tour de force, a full-blooded legal thriller about a murder trial and the way it shatters a family. With its relentless suspense, its mesmerizing prose, and a shocking twist at the end, it's every bit as good as Scott Turow's great *Presumed Innocent*. But it's also something more: an indelible domestic drama that calls to mind *Ordinary People* and *We Need to Talk About Kevin*. A spellbinding and unforgettable literary crime novel."—Joseph Finder "Defending Jacob is smart, sophisticated, and suspenseful—capturing both the complexity and stunning fragility of family life."—Lee Child "Powerful . . . leaves you gasping breathlessly at each shocking revelation."—Lisa Gardner "Disturbing, complex, and gripping, *Defending Jacob* is impossible to put down. William Landay is a stunning talent."—Carla Neggers "Riveting, suspenseful, and emotionally searing."—Linwood Barclay

Where the Mountain Meets the Moon Harvard Business Review Press

3D Robotics co-founder and bestselling author Chris Anderson takes you to the front lines of a new industrial revolution as today's entrepreneurs, using open source design and 3-D printing, bring manufacturing to the desktop. In an age of custom-fabricated, do-it-yourself product design and creation, the collective potential of a million garage tinkerers and enthusiasts is about to be unleashed, driving a resurgence of American manufacturing. A generation of "Makers" using the Web's innovation model will help drive the next big wave in the global economy, as the new technologies of digital design and rapid prototyping gives everyone the power to invent--creating "the long tail of things".

Masters of Scale Penguin

Presents an introduction to evolutionary developmental biology which studies genes and their role in biological diversity and evolution.
