 Discover the cutthroat world behind the polite smiles and perky demeanors of morning news in the book that inspired the Apple TV series starring Reese Witherspoon, Jennifer Aniston, and Steve Carrell. When America wakes up with personable and charming hosts like Robin Roberts and George Stephanopoulos, it's hard to imagine their show bookers having to guard a guest's hotel room all night to prevent rival shows from poaching. But that is just a glimpse of the intense reality revealed in this gripping look into the most competitive time slot in television. Featuring exclusive content about all the major players of the 2000s, the book illuminates what it takes to win the AM -- when every single viewer counts, tons of jobs are on the line, and hundreds of millions of dollars are at stake. Author Brian Stelter is behind the scenes as Ann Curry replaces Meredith Vieira on the Today show, only to be fired a year later in a fiasco that made national

headlines. He's backstage as Good Morning America launches an attack to dethrone Today and end the longest consecutive winning streak in morning television history. And he's there as Roberts is diagnosed with a crippling disease -- on what should be the happiest day of her career. So grab a cup of coffee, sit back, and discover the dark side of the sun. PRAISE FOR TOP OF THE MORNING "Mr. Stelter pulls back the curtains and exposes a savage corporate world that might have been inhabited by the Sopranos." - Washington Times "A troubling look inside an enterprise as vicious and internecine as a soap opera." - Kirkus Reviews

Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how it goes; it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

"This gentle, gorgeously written book may be one of my favorites ever." —Jenna Bush Hager (A Today show "Read with Jenna" Book Club Selection!) This "moving portrait of love and friendship set against a backdrop of social change" (The New York Times Book Review, Editor's Choice) traces two married couples whose lives become entangled when the husbands become copastors at a famed New York city congregation in the 1960s. Charles and

Lily, James and Nan. They meet in Greenwich Village in 1963 when Charles and James are jointly hired to steward the historic Third Presbyterian Church through turbulent times. Their personal differences however, threaten to tear them apart. Charles is destined to succeed his father as an esteemed professor of history at Harvard, until an unorthodox lecture about faith leads him to ministry. How then, can he fall in love with Lily—fiercely intellectual, elegantly stern—after she tells him with certainty that she will never believe in God? And yet, how can he not? James, the youngest son in a hardscrabble Chicago family, spent much of his youth angry at his alcoholic father and avoiding his anxious mother. Nan grew up in Mississippi, the devout and beloved daughter of a minister and a debutante. James's escape from his desperate circumstances leads him to Nan and, despite his skepticism of hope in all its forms, her gentle, constant faith changes the course of his life. In *The Dearly Beloved*, Cara Wall reminds us of "the power of the novel in its simplest, richest form: bearing intimate witness to human beings grappling with their faith and falling in love," (Entertainment Weekly, A-) as we follow these two couples through decades of love and friendship, jealousy and understanding, forgiveness and commitment.

Against the backdrop of turbulent changes facing the city and the church's congregation, Wall offers a poignant meditation on faith and reason, marriage and children, and the ways we find meaning in our lives. *The Dearly Beloved* is a gorgeous, wise, and provocative novel that is destined to become a classic.

#1 NEW YORK TIMES BESTSELLER • A memoir of leadership and success: The executive chairman of Disney, Time's 2019 businessperson of the year, shares the ideas and values he embraced during his fifteen years as CEO while reinventing one of the world's most beloved companies and inspiring the people who bring the magic to life. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR Robert Iger became CEO of The Walt Disney Company in 2005, during a difficult time. Competition was more intense than ever and technology was changing faster than at any time in the company's history. His vision came down to three clear ideas: Recommit to the concept that quality matters, embrace technology instead of fighting it, and think bigger—think global—and turn Disney into a stronger brand in international markets. Today, Disney is the largest, most admired media company in the world, counting Pixar, Marvel, Lucasfilm, and 21st Century Fox among its properties. Its value is nearly five times what it was when Iger took over, and he is recognized as one of the most innovative and successful CEOs of our era. In *The Ride of a Lifetime*, Robert Iger shares the lessons he learned while

running Disney and leading its 220,000-plus employees, and he explores the principles that are necessary for true leadership, including:

- Optimism. Even in the face of difficulty, an optimistic leader will find the path toward the best possible outcome and focus on that, rather than give in to pessimism and blaming.
- Courage. Leaders have to be willing to take risks and place big bets. Fear of failure destroys creativity.
- Decisiveness. All decisions, no matter how difficult, can be made on a timely basis. Indecisiveness is both wasteful and destructive to morale.
- Fairness. Treat people decently, with empathy, and be accessible to them.

This book is about the relentless curiosity that has driven Iger for forty-five years, since the day he started as the lowliest studio grunt at ABC. It's also about thoughtfulness and respect, and a decency-over-dollars approach that has become the bedrock of every project and partnership Iger pursues, from a deep friendship with Steve Jobs in his final years to an abiding love of the Star Wars mythology. "The ideas in this book strike me as universal" Iger writes. "Not just to the aspiring CEOs of the world, but to anyone wanting to feel less fearful, more confidently themselves, as they navigate their professional and even personal lives."

'It might not be in your lifetime', said the Chief Justice of the United States when asked whether the files on the assassination of President Kennedy would be made public. If the President was killed by a lone gunman, as the first official enquiry claimed, why can we still not see all relevant records? Fifty years on and the murder of the century remains unsolved. Drawing on thirty years of investigation, Anthony Summers examines the case in compelling, forensic detail. He analyses the evidence for Oswald's guilt, the Mafia connection, and the links to Cuba and reveals, for the first time, a plausible admission of involvement. This updated edition of *Not in Your Lifetime* is the most definitive account of one of the most intractable mystery mysteries of our time.

The Assassination of JFK Dutton Adult

After the Roaring '20s came the Great Depression. After the Roaring 2000s came the Great Recession. We're now entering the winter season of the 80-Year Four Season Economic Cycle. It's during this season that we'll clear the decks with a devastating crash and debilitating deflation. The economy and markets will shed the excesses created during the preceding fall bubble boom season and prepare the soil for new blossoming in innovation and a spring boom. After the blustering bull market of 2009-2015, we are now preparing for a shakeout more painful than anything we've seen before. We have eight years of unprecedented government stimulus and money creation to thank for stretching this bubble beyond imagination and making the burst more painful than anything we've ever experienced. There's no better guide to financial cycles than Harry S. Dent Jr., the bestselling author of *The Demographic Cliff* and many other books, and the editor of the *Boom & Bust* newsletter. For more than 30 years he has earned a reputation for eerily accurate predictions about the world economy and the financial markets. Now Dent has an urgent new warning about the next crisis. The consequences will be devastating--but there's a bright side that he's calling "the sale of a lifetime." For anyone who heeds the signs and follows Dent's advice, the looming correction is a once-in-a-century opportunity to gather immense wealth. In this pressing book, you'll learn not only why a collapse is imminent, but how to identify bubbles and tune in to the cycles driving that drive booms and busts. Practical, accessible, and illuminating, *The Sale of a Lifetime* will protect you from the tough challenges ahead and help you cash in on the unique opportunities of the next few years. At stake is nothing less than your entire financial future.

The Ride of a Lifetime Little, Brown

These writings, stories and poems have been written over the course of the author's lifetime. They are now collected and offered to lift our spirits, make us laugh, and attempt to explain and gently ease the tensions of our contemporary society. They may be accepted as the writings of a humorist and entertainer or those of a social theorist or cultural analyst, and they cover a wide range of subjects - life, love, aging, laughter, ethics, decency, happiness, love, angst, and even travel. Some of these writings are humorous. Some are deeply personal. Some are serious, but most - just like life - lie in between. These writings are about Modern America as it exists today - a complicated, competitive, diverse, era dominated by technology, globalism, war, famine, and terrorism, the conflicting perceptions of the roles of ethics, government, families, and religion - the lingering consequences of the Reagan, Clinton, Bush, and Obama Years and more recently, the Trump Years. Some subjects are approached with a degree of humor and levity. Partly, this is merely a matter of style. Partly, this is because the author believes that it is sometimes hard to learn from the thick and heavy books of science, philosophy, politics, and history. There certainly is a time for the picky details of experts and the pushy words of pundits, commentators, and scholars. But not always. And especially not now. Not today. The wide range of subjects is intended to reflect (and respect) the wide interests of my readers. Some readers are looking for solid answers. Some are looking for good questions. Some merely wish to be distracted and entertained. And so, where do I find you this day? In an airport? Your office? Reading late at night in your home? No matter your purpose or location, I thank you. I welcome you. If my writings convey a special insight or pass on an accidental piece of wisdom, I would be most pleased; even honored. I leave that for you to decide....

Award-winning former investigative reporter Basil Hero chronicles the life lessons humanity can learn from the twelve remaining Apollo astronauts who went to the Moon. In rare in-depth interviews, the twelve remaining lunar explorers, for the first time, talk at length about the real right stuff; the true source of courage, leadership, and the quiet patriotism that it took to risk their lives going to the moon. Hero begins each chapter with key life lessons that readers can gain from these honorable men whom he calls the Eagles. He describes how they mastered their emotions and learned to conquer their fears through techniques that can be used from the classroom to the boardroom. More importantly their voyages to the Moon led them to the most incredible discovery of all: our home planet and its precious place in the universe. They fear for Earth's future and offer sensible solutions to its mounting crises and the path to future space exploration. In *The Mission Of A Lifetime*, the Eagles share their wisdom and urge us to reframe our view of Earth to theirs: no identifiable nations, borders, or races; just Earthlings working together as a collective civilization.
